

Federal Aviation Administration

SAFETY ALERT

Date: March 21, 2012

To: Users of the Terminal Procedures Publication (TPP) and the Users of the digital-Terminal Procedures Publication (d-TPP) DVD.

From: Aeronautical Navigation Products (AeroNav Products)

Subject: Correction to the Hot Spot color added to FAA Airport Diagrams for the April 5, 2012 Effective Date, Volume 1204.

The April 5, 2012 Terminal Procedures Publication (TPP) and the digital Terminal Procedures Publication (d-TPP), volume 1204 were enhanced by adding a brown color to the Hot Spots on Airport Diagrams to increase the importance of these locations. Unfortunately, the brown color that was selected is appearing lighter than expected. Please reference the 5 APR 2012 Airport/Facility Directory or http://www.faa.gov/air_traffic/flight_info/aeronav after April 3rd to see the Airport Diagrams with color Hot Spots with the intended color.

All the Airport Diagram with Hot Spots will be added to the 5/3/12 Change Notice publication and to the 5/3/12 digital Terminal Procedure Publication (D-TPP) DVD with the corrected darker brown color

To obtain a zip file of all the color corrected Airport Diagrams, you can download them at: http://aeronav.faa.gov/content/aeronav/safety_alerts/12_04_color_corrected_ADs.zip

If you have any questions or concerns, contact Aeronautical Navigation Products at 1-800-626-3677 or via e-mail at: 9-AMC-Aerochart@faa.gov
