

Federal Aviation Administration

SAFETY ALERT

Date: February 22, 2013
To: Users of the Coded Instrument Flight Procedures (CIFP)
From: National Aeronautical Navigation Services (AeroNav Products)
Subject: Unusable MEAs on Airways V154 and V573

There is an error in the 7 MAR, 2013 edition of the CIFP (1303).

The following CIFP Airway (ER) segments have incorrect MEA values and must not be used:

V154 between sequences 190 (DBN) and 240 (LOTTTS)

V573 between sequences 030 (ALEXX) and 040 (ADM)

These errors will be corrected in the 1305 edition of the CIFP.
